Science Fair at The Royal School

Year 3 Science Fair News!

In Year 3, pupils put their inquiry and investigation skills to the test as they delved into different methods of showcasing lights and shadows during the Science Fair. They examined the creation of shadows, the reflection and movement of light, and the shifting patterns of shadows throughout the day. Through engaging and creative projects, they showcased their newfound knowledge with pride, making their learning journey even more captivating.

Nurturing Scientific Curiosity in Year 4

The Science Fair became a platform for our budding scientists to showcase their ingenuity and scientific prowess. Collaborating in teams, Year 4 pupils delved into the captivating realm of "States of Matter." With zeal and creativity, they meticulously designed and presented unique projects, demonstrating their comprehension of solids, liquids, and gases.
